Intermediate Project Management
Belajar Fundamental Deep Learning

Rania Zamrizq

Business Analyst Enthusiast | Analytics | Project Management |
Business Improvement | Information System Student
Jakarta, Indonesia

Summary

Motivated and detail-oriented individual with a strong interest in Project Management and Business Analytics. Since my third semester of university, I have actively pursued project management by completing multiple certifications ranging from fundamental concepts to hands-on project implementation. I continuously develop my skills in planning, execution, and coordination, and I am committed to delivering structured, efficient, and goal-driven project outcomes. My academic background and practical experience have also strengthened my ability to work collaboratively, manage timelines, analyze data-driven insights, and contribute effectively to project success.

Experience

Radius Data Solusi

Business Analyst & System Analyst Intern
March 2026 - Present (3 months)

Pijak in collaboration with IBM SkillsBuild

AI Engineer Cohort
February 2026 - Present (4 months)

Throughout the program, I strengthened my foundation in Programming Logic (Programming Logic 101), Python fundamentals, Basic AI, and Git with GitHub. The ILT sessions were especially insightful they didn't just teach technical skills, but also shaped the way I approach problem-solving more systematically.

Telkom University

Business Process Modeling Practicum Assistant
November 2025 - January 2026 (3 months)
Jakarta, Indonesia

Supported business process analysis and modeling (BPMN) in 2 practical classes to enhance understanding of end-to-end business process flows.

Developed structured learning modules and process analysis materials to support standardization and benchmarking of learning processes.

WebVenture

Mentor

May 2025 - May 2025 (1 month)

Mentor at WebVenture by HIMSI, supported students in crafting compelling portfolios and enhancing their self-branding to improve their digital presence.

Education

Telkom University

Undergraduate Student, Information System · (2023)
